## L.E.D DRIVING LIGHTS

## RAPTOR L.E.D

Shown with Standard Bracket - Optional Side mount bracket available. See page 8

The all new Power Vision RAPTOR L.E.D driving light features the very latest in high output L.E.D. optic technology. Utilizing 16W German Osram L.E.D's and recoil technology, these lamp produce an exceptionally powerful beam. The RAPTOR L.E.D Super Light features a rugged die-cast aluminium housing and free form spread or pencil reflectors.

With UV stabilized toughened polycarbonate lenses and clear lens cover, these lamps stand up to the ultimate abuse that the harsh Australian conditions produce. The Raptor come standard with a 316 Stainless Steel lower multi-adjust mounting bracket, with the option of an easy adjust side mount bracket.

All RAPTOR lamps come complete with wiring harness and anti-theft nuts.
